

Welding Chapter

The Welding Chapter aims to provide participating students the opportunity to receive guidance, encouragement, and valuable experience for their future career and personal development.

Membership

The Welding Chapter is open to ALL students to participate in and become more familiar with the technology of welding. Meeting and event topics will include*: The opportunity for members to refine their skills while increasing their understanding of welding principles, The promotion of welding and goodwill among students, faculty, and staff

*Meeting topics and events will vary based on member interests.

Welding Chapter Activities

Planning and executing fundraising activities and welding projects, Community service project each semester, South Carolina Tech College Welding Skills Competition
